

## **Mobile Voice Solutions, RF Device Integration Barcode Scanning Technologies, Mobile Workforce Enablement**

CSI has been delivering data capture solutions for over twenty years. These solutions integrate mobile computers to our clients systems via Wireless LAN and extend to mobile workers via Wireless WAN. Due to our independence and experience of mobile solutions we can help our clients select the devices that are best suited to their needs; from the harshest manufacturing environment requiring rugged intrinsically safe RF devices, through to retail operations requiring lightweight yet robust terminals.

Our experienced team will ensure that our clients consider key facets and features which will lead to successful data capture projects; such as:

- Return on investment
- Total cost of ownership
- Future-proof investment
- Ongoing support and maintenance
- Barcode scanning range
- Barcode symbology (1D & 2D)
- Keyboard layout
- Accessories

CSI recommend and deliver data capture solutions across a broad spectrum of operations and devices including:

- Warehouse & Distribution
- SAP Logistics Execution
- Proof of Delivery
- Manufacturing
- Plant Maintenance
- Asset Management
- Job / time recording
- Field service
- Sales Force Automation
- Retail
- Ports
- Fork lift truck mounted
- Handheld
- Cold Store
